Designer Cutting Dies - Block Out (100397)

Perfect Positioner (100407)

OWL THANK YOU CARD

- Remove clear plastic protector from back of Perfect Positioner. Place on die-cutting tool platform. Remove front plastic protector.
- Position largest Card die on Perfect Positioner with cutting side facing up. Use ruler grid markings as a guide. Gently press die to secure.
- Center 3rd largest Scallop Designer Die Insert in top portion of Card die - making sure that the cutting side is facing up.
- Insert "THANK" and "YOU" dies into middle of Scallop insert. The "THANK" and "YOU" are going to be facing away from you.
- Place a piece of Kraft/White Chipboard (white side facing up) over top of dies. Follow your tool instructions for cutting.
- Remove die-cut shape after cutting. Fold on score line. How fun! The double sided Chipboard shows the white side through the words!
- Add Mini Black and White Houndstooth Decorative Paper Tape along the bottom edge of card front - wrap to inside.
- Place Owl Mini Sticker Embellishment over the "O" in "YOU". Replacing letters with stickers is a great way to incorporate fun into cards.
- Cut a 15-inch length of Black & White Twine. Tie a bow around the center fold of card. Trim ends of Twine as needed.
- Write clever phrases inside card . . . "OWL" always remember you for your kindness! Thank you! . . . "Whooooo Loves You? I Do!"
